

CREATING GOOD PASSWORDS

Some best practices to create a strong and secure password.

LONG, UNPREDICTABLE, UNIQUE

The longer the passphrase, the better. Shorter passwords are easier to crack.

Use a random mix of unpredictable words.

Use a unique passphrase for every valuable account.

PROTECT YOUR PASSWORDS

Secure your passwords by using a trusted password manager.

Safeguard passphrases, keep private, avoid sharing, stay vigilant in public use, prioritize security always.
